1. Introduction

Integrated child development services (ICDS) was formulated by the Government of India in 1975, as a comprehensive child survival and development programme for children under the age of 6 yrs. It is the foremost symbol of our Nation's commitment to the millions young Indians living in conditions of poverty and different forms of deprivation. ICDS contributes not only to the achievement of Women and Child goals related to health, nutrition and early child development, but also to other primary health care goals and the goals of universal elementary education, as enunciated in the National Plan of Action for Children, 1992. The challenges before us is promotion and fulfillment of the rights of the children especially the girl to early care for survival, development, protection and participation. The programme provides an integrated approach for converging basics services for improved child care-to ensure the healthy psychological, physical and social development of children. The programme's objectives, set in this direction, include:-

- 1) To improve health and nutritional status of child below six years.
- 2) To lay the foundation for proper physical, social and psychological development of the child.
- 3) To reduce the incidents of Malnutrition, Morbidity, Mortality and School drop out.
- 4) To achieve effective co-ordination of policy and implementation amongst the various department to promote child development.
- 5) To enhance the capability of the mother to look after the normal health and nutritional need of the child through nutrition and health education.

Services provided by ICDS includes-

- 1)Non-formal pre-school education.
- 2)Supplementary Nutrition
- 3)Immunization.
- 4)Referral services.
- 5)Health check up.
- 6)Health and nutrition education.

Supervisors of ICDS are the Middle Level functionaries who provides link between CDPOs and other grass root level workers. They are also responsible for upgrading the knowledge and skills of Anganwadi Workers, identifying beneficiaries and ensuring supply of food to centre and flow of health services, monitoring of the programme and reporting to the CDPOs. They also ensure convergence of services by networking with other government departments and voluntary organizations.

Training of ICDS functionaries is regarded as one of the most vital component of ICDS programme and is acknowledge as the key factor in successfully implementation of the programme. Thus extensive programmes of training for all categories of functionaries of ICDS are being organized right from launching of the scheme. The Supervisors, who are the Middle Level functionaries of the scheme are imparted Job Training by the Middle Level Training Centers (MLTCs) in their own states. However, Middle Level Training Centre, run by Sadau Asom Gramya Santha, Nagaon completed 52 batch Job Training programme for Supervisors.
